10.   Attach the ground wire (silver or brass in color) from the fixture to the ground junction box wire (usually green or copper wire). Fasten together with a plastic wire connector and wrap the connection with electrical tape. Be sure no wire strands are exposed. It is imperative that the outlet box in your home be properly grounded. Be sure no wire strands are exposed.

11. Connect the neutral wire from the fixture (ridges molded wire) to the neutral wire from the junction box (usually white). Fasten together with a plastic wire connector and wrap the connection with electrical tape. Be sure no wire strands are exposed.

12. Connect the hot wire from the fixture (smooth wire) to the hot wire (usually black) from the junction box. Fasten each together with a plastic wire connector and wrap the connection with electrical tape. Be sure that no wire strands are exposed. DO NOT REVERSE THE HOT AND NEUTRAL CONNECTIONS OTHERWISE SAFETY WILL BE COMPROMISED.

13. Tuck wire connection neatly into ceiling outlet box.

14. Slip canopy (D) to ceiling and secure with threaded canopy ring (F).

15. Insert light bulbs into the socket
