

Assembly Instructions For **F2397/5** (E) 11/08

IMPORTANT TURN OFF THE POWER AT THE MAIN FUSE OR CIRCUIT BREAKER BOX BEFORE STARTING INSTALLATION

Carefully unpack and identify all parts before assembly. Bulb not included.

- Carefully thread fixture wire through fixture loop. Screw fixture loop onto top threaded pipe until secure.
- A. Spread open all arms so they are equally spaced apart to each other.
B. Lock upper section of arms with ball cap screw onto corresponding holes at center body.
- Install bottom cover onto bottom of fixture by fastening with finial.
- Follow enclosed supplement installation instructions for electrical and fixture installation onto house outlet box. If you do not have an outlet box at desired location to attach the fixture than hire a qualified electrician to create one.
- Place Shade over threaded socket then spacer tube and secure with counter ring, using provided wrench.
- Install bulbs (not included). See relamping label located at socket area for type and maximum allowed wattage.
